

## Enterprise Governance, Risk, and Compliance

Born out of the “Big Four”, Simply Axiom’s seasoned team of consultants offers decades of practical experience in the Financial, Banking, Accounting, Healthcare, Information Technology, Information Security, and Government Contracts sectors. From entrepreneurial start-ups to large, global enterprises with onshore and offshore operational models, our experience transcends traditional boundaries. Our team has engineered and implemented risk methodologies and frameworks, transformed organizations to optimize for risk management, and has vast experience selecting, implementing, and operating best-in-breed eGRC software suites.

At Simply Axiom, it’s all about you -- your vision, your project, and your success. We understand that each firm has different risk tolerances and response needs and will work with you to deliver a solution for your success.

All services can be customized for your needs. A sample of our eGRC offerings are listed below.

01

### **Risk Framework Consulting**

By identifying the right data classification framework, risk acceptability and response, and documenting proper controls and remediation expectations, our process engineering experts can provide you with a best-in-class standard for eGRC

02

### **Organizational Design for Risk**

Partnering with you to determine the right roles, right leadership hierarchy, right skill sets, and right training programs necessary to ensure a robust eGRC practice

03

### **Risk Program Governance**

The know-how to identify the most important indicators and messages to your stakeholders regarding eGRC - and the talent to enable your leaders to make strategic choices for organizational risk management

04

### **eGRC Tool Consulting**

Let our experience with industry-leading enterprise governance, risk and compliance software help you choose the right enterprise suite for a variety of risk stakeholders

+

### **Information Security Services**

Our strategic alliances with InfoSec service providers for services like Vulnerability Assessments, Web Application Assessments, and Penetration Tests allow us to provide full coverage to your firm's CISO or need for CISO as a Service

For more information on our full eGRC scope of services, contact Simply Axiom today!
